REAL WORLD JOBS

Procedure:

Choose two jobs; a minimum wage job and a 4-year college degree career job. Then compare the life you can live depending on your salary. By this, you will have to search the salary of each job and determine how much you will get paid. You will calculate each of the following as well:

- Rent (apartment or house)
- Transportation
- Sports and Leisure
- Food
- Utilities

What I found out

I found out that as a waitress I will not be able to live a lifestyle of luxury. But as a landscape architect I can comfortably live this lifestyle and still put money in the bank for later.

WHAT I DID

For my project I chose to compare the two jobs of waitress and landscape architect. For these jobs I researched living expenses, salary, and then based off of that information I compared them.
